

# News Tracker Application

## ASSIGNMENT 1

Batch	B7-1A3E
Team Id	PNT2022TMID50567
Student Name	Bhavani C
Student Register Number	952819104009
Task	Task - 1

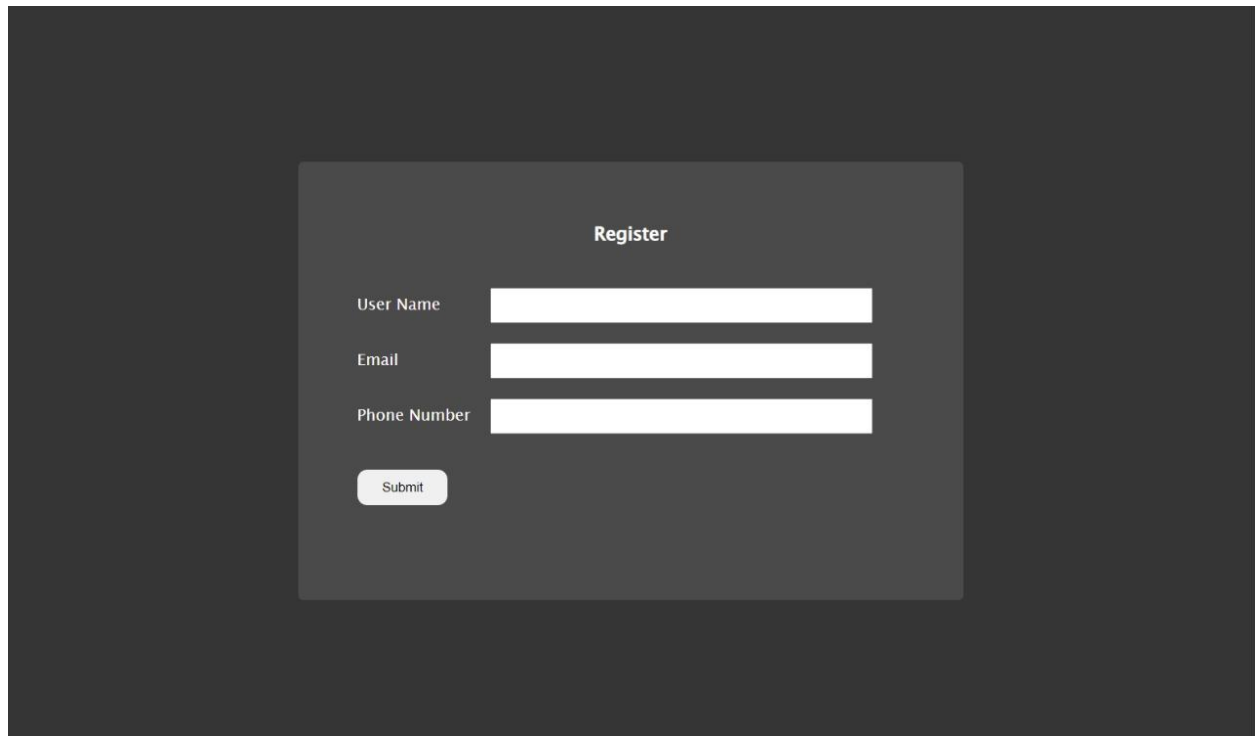

Task - 1:

Create registration page in html with username, email and phone number and by using POST method display it in next html page.

Code:

<https://github.com/IBM-EPBL/IBM-Project-47890-1660803089/tree/main/Assignments/Assignment1/Program1>

Output:

A screenshot of a web application's registration form. The form is titled "Register" and is set against a dark gray background. It contains three input fields for "User Name", "Email", and "Phone Number", each with a light gray border. Below these fields is a light gray "Submit" button. The form is centered within a larger dark gray container.

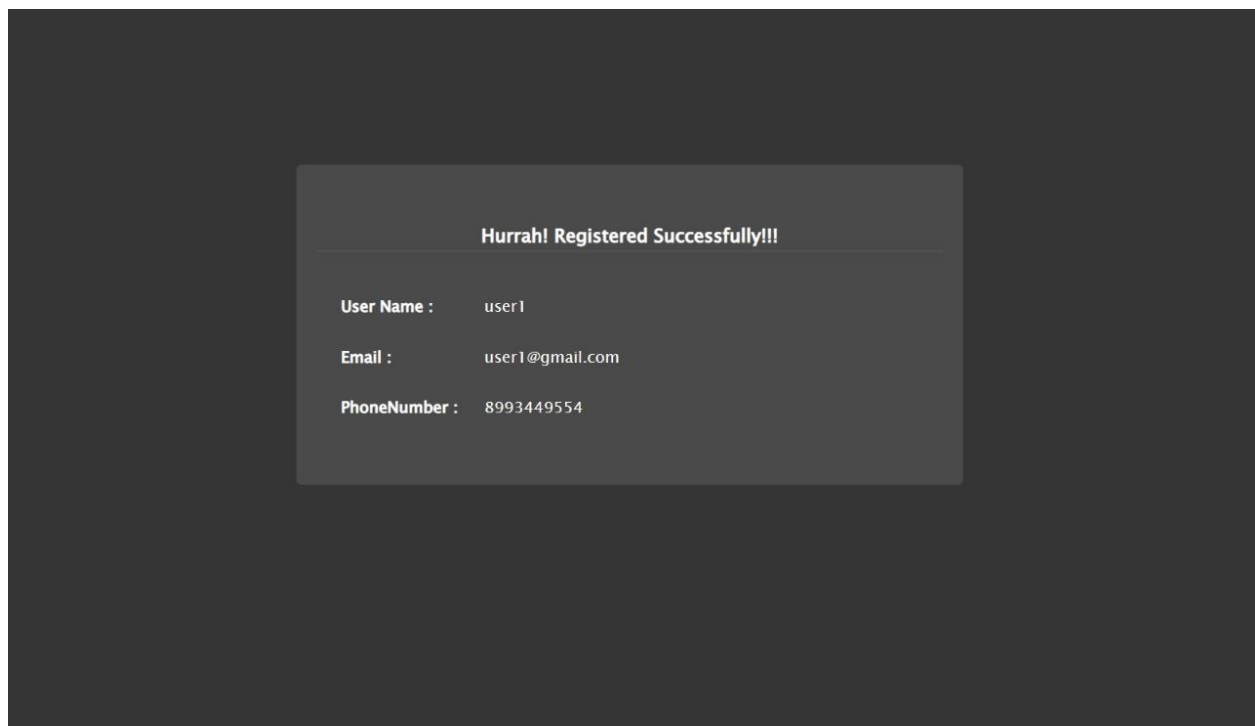

Register

User Name

Email

Phone Number

Submit

A screenshot of a web application displaying a success message after registration. The message "Hurrah! Registered Successfully!!!" is centered at the top. Below it, the registered user's details are listed: "User Name : user1", "Email : user1@gmail.com", and "PhoneNumber : 8993449554". The text is white on a dark gray background.

Hurrah! Registered Successfully!!!

User Name : user1

Email : user1@gmail.com

PhoneNumber : 8993449554
