3. Create an IBM container registry and deploy helloworld app or jobportalapp.

The image shows two screenshots. The top screenshot is the 'UI For Docker' web interface. It has a navigation bar with links: Dashboard, Containers, Containers Network, Images, Networks, Volumes, and Info. A 'Refresh' button is on the right. The main content area has a large 'UI For Docker' title, the subtitle 'The UI for Docker container engine', and a 'Learn more.' button. Below this, there are sections for 'Running Containers' (showing 'beautiful_goldwasser' with a status 'Up About a minute') and 'Status' (with a green progress indicator).

The bottom screenshot is a terminal window showing a Docker session. The terminal output is as follows:
