

Assignment – 4

Assignment Date	21-OCT-2022
Team ID	PNT2022TMID505 67
Student Name	C.Bhavani
Student Roll Number	952819104009
Maximum Marks	2 Marks

Questions:

1. Pull an image from docker hub and run it in docker playground.

2. Create a docker file for the job portal application and deploy it in Docker desktop application.

```
C:\Windows\System32\cmd.exe
>> [internal] load build definition from Dockerfile
>> transferring dockerfile: 32B
>> [internal] load .dockerignore
>> transferring context: 0B
>> [internal] load metadata for docker.io/library/python:3.8
>> [auth] library/python:pull token for registry-1.docker.io
>> [internal] load build context
>> transferring context: 687B
>> [1/6] FROM docker.io/library/python:3.8@sha256:f8532afaf88c25f0d22354d5a7d892591067aa402ba7fa9a8810d9f300af6fc

NAME	TAG	IMAGE ID	CREATED	SIZE
job-portal-main	latest	1756719486df	less than a minute ago	1.08 GB

RAM 2.53GB CPU 1.56% Connected to Hub v4.13.0

3. Create an IBM container registry and deploy helloworld app or jobportalapp.

The image shows two screenshots. The top screenshot is the 'UI For Docker' web interface. It has a navigation bar with links: Dashboard, Containers, Containers Network, Images, Networks, Volumes, and Info. A 'Refresh' button is on the right. The main content area has a large 'UI For Docker' title, the subtitle 'The UI for Docker container engine', and a 'Learn more.' button. Below this, there are sections for 'Running Containers' (showing 'beautiful_goldwasser' with a status 'Up About a minute') and 'Status' (with a green progress indicator).

The bottom screenshot is a terminal window with a Windows taskbar at the top. The terminal shows a list of instances on the left, including '192.168.0.13 node1'. The main terminal area shows the following commands and output:

```
# This is a sandbox environment. Using personal credentials #
# is HIGHLY! discouraged. Any consequences of doing so are #
# completely the user's responsibilities. #
# The PWD team. #
